Principal's Letter to Parents

"TAKE A BREATH WEEK"

Hi Everyone

It's around this time each year that we start to see the impact of having such a busy year has on students, staff and parents alike, so this week I want to share with you an initiative that will take place next week called 'Take a Breath Week'. The intention behind this week is to prioritise the importance of taking time to stop, take a breath and replenish the batteries through some adjustments to the normal practices and the introduction of some deliberate wellbeing activities. Below I have detailed some of the recommended processes associated with the week.

Student Wellbeing Sessions

- On two occasions throughout the week students will negotiate activities with their teachers that they determine bring them the most enjoyment and fulfilment. It might be getting out to the oval for the afternoon to play some sport, additional art sessions or even some buddy time with another class. Taking time to enjoy the things we value most, empowers us to give our best efforts to all areas of schooling.

No Homework

- For the period of the week all classes will refrain from issuing any homework or additional tasks to be completed outside school hours. In its place students are encouraged to perhaps do some cooking, read for enjoyment, play outside or spend time with loved ones in a relaxed setting. Parents are encouraged where possible to make it home from work earlier, go for a walk together or take time at the start of the day together either over a meal or perhaps just staying in bed a little longer.

Loosening of eating and play locations

- During lunch breaks students will be given the opportunity on a number of occasions to eat in a variety of locations around the school. They won't be limited to where and for how long they must eat and will be encouraged to sit with students of different age groups. Balls games are permitted to be played at both breaks and play location restrictions will be loosened whilst still attending to WH and S guidelines. It is intended that by offering small opportunities to display responsibility we are in fact building more responsible students in the long term.

Time with Family

- Throughout the week, staff are encouraged (myself included) to head home at a decent hour and spend time with their families. As mentioned previously, I would encourage our families to make the most of this together also. If parents need to see a classroom teacher before or after school of significant importance they are welcome to do so, alternatively if it isn't urgent we ask that you hold off from making appointments next week.

Pyjama Day

- On the Friday we will hold a pyjama day for students and staff. Given the cool weather at the moment a set of flannos won't be out of place. Suitable pyjama clothing is required that still meets sun safe standards of closed in shoes and clothing with coverage similar to the school uniform.

Dependent on the success of the week we may look to do one each term as we see students, staff and the wide staff community in need of the time to stop and bring everything back to what is important. I would like to thank you in advance for your support and look forward to seeing the positive outcomes that surface from taking time to recharge the batteries.

See you Friday night at the Arts Evening!

Ben

Our Good Samaritan Values and History

This term our Year 4 class is focussing upon the Good Samaritan (Luke 10:25-37) Scripture text. It seems to be a great opportunity to connect us to our Good Samaritan values and history that we at St. Joseph's strive to emulate every day. Here is how the story Jesus told, came alive in Sydney 150 years ago, and was the basis upon which the formation of the Sisters of the Good Samaritan were formed.

Two thousand years ago, Jesus told a story set on the winding Jericho road. The story was the much loved parable of the Good Samaritan. It was a story about conflict, injury, need and compassion. It is a story that has been retold and relived for centuries. One hundred and fifty years ago on the winding streets of colonial Sydney, this story came alive once again.

For some Sydney was a place of a new start, of opportunity and excitement. For others life was extremely hard, particularly for women. Many single mothers struggled to support their family with no social welfare, no state education and often nowhere to live.

Archbishop John Bede Polding a Benedictine monk from Downside Abbey in England, became a good neighbour to these women and to others on the margins, to convicts, the Aboriginal people and abandoned children. He supported the establishment of a refuge for women, the House of the Good Shepherd. It was run by the Sisters of Charity under the leadership of Mother Scholastica Gibbons.

The future of the refuge was threatened when the Sisters of Charity were no longer able to maintain their ministry. Who would be neighbour to these abused and disadvantaged women?

The crisis brought to the fore Polding's dream of founding a new religious congregation of women which would combine Benedictine spirituality with practical charity for the poor and those on the margins.

Five women came together on February 2, 1857 to found the first Australian congregation, the Sisters of the Good Samaritan of the Order of St Benedict.
